FRS receives donations from many different companies and individuals that make its programs possible. Some funding is given specifically for educational awareness activities and programming, but it is up to FRS to decide how to use this funding. FINAL

## FRS Congressional Broadband Tour – Montana

### August 17-20, 2021

---

The Foundation for Rural Service (FRS) is a 501c3 non-profit dedicated to enhancing quality of life in America by promoting a better understanding of rural issues. The vision of FRS is to harness the power of the rural communications industry to enrich lives in America.

The purpose of this trip is to educate Hill staff on the geographic and financial challenges of providing robust broadband service to remote rural areas, as well as to highlight the role rural telecom companies play in providing these essential services that support education, commercial activity, agriculture, health, and public safety. Attendees will visit with a range of small, rural telecommunications companies in Montana as well as companies that provide essential services to these companies. The group will also visit with rural community leaders and discuss ways in which the state has been enhanced by broadband applications. Drive times through Montana will give FRS staff an opportunity to provide educational sessions on the bus, as well as illustrate the difficulty of serving “last mile” areas in a highly rural state.

Per the Ethics rules, no registered lobbyists will attend this trip. All expenses will be paid in full by the Foundation for Rural Service (FRS) and will be subject to the daily per diem allowances for Senate and House employees—in other words, all meals, lodging and transportation for staffers will be covered by FRS within these allowance rates.
